

RELIABLE SOLUTIONS
FOR PLASTIC WELDING

IZ-1600

Hot Air Gun

The IZ-1600 is a compact and lightweight hot air gun suitable for membrane work, plastic welding support, roofing, industrial maintenance and general hot air applications. It delivers stable performance, easy handling and reliable heat for a wide range of on-site and workshop tasks.

*Lightweight.
Reliable.
Versatile.*

KEY FEATURES

-  1600 W power
-  Temperature range 20 – 620 °C
-  Max air volume 180 L/min
-  Lightweight 1.05 kg
-  Low noise ≤ 65 dB
-  Brush motor

STRUCTURE / COMPONENTS

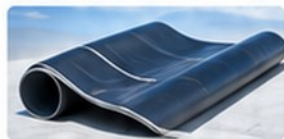

- 1 Air Duct
- 2 Outer Cover
- 3 Shockproof Pad
- 4 Handle
- 5 Potentiometer
- 6 Power Switch
- 7 Power Cord

TECHNICAL DATA

Model	IZ-1600
Rated Voltage	230 V / 120 V
Frequency	50 / 60 Hz
Power	1600 W
Temperature	20 - 620 °C
Air Volume	Max 180 L/min
Noise	≤ 65 Db
Net Weight	1.05 Kg
Motor	Brush
Overheat Protection	Default
Temperature Control	Open loop
Certificate	CE

APPLICATIONS

GEOMEMBRANE
WORK

ROOFING

PLASTIC
FABRICATION

INDUSTRIAL
MAINTENANCE

FOIL & SHEET
WELDING

LIGHTWEIGHT DESIGN
Easy handling,
less fatigue

**PRECISE
TEMPERATURE CONTROL**
Consistent and reliable heat

FIELD READY
Durable for
real-world use

**VERSATILE
APPLICATIONS**
From membranes
to industrial projects
